Visual Media: No detection data.

CLAIM-BY-CLAIM ANALYSIS

CLAIM 1: VERIFIED TRUE

Statement: The Pacific Ocean is the largest ocean on Earth.

Reasoning: Standard geographic fact confirmed by multiple authoritative sources including NOAA and Encyclopedia Britannica.

Audit Trail (Chain of Thought):

- 1. Identified 'Pacific Ocean' and 'largest' as key entities.
- 2. Cross-referenced with global oceanic data.
- 3. Confirmed Pacific surface area exceeds Atlantic, Indian, and Arctic combined.

Top Evidence:

https://en.wikipedia.org/wiki/Pacific_Ocean

CLAIM 2: FACTUALLY FALSE

Statement: The moon is made of green cheese.

Reasoning: Lunar samples and orbital observation confirm the moon is composed of silicate rock.
